November 14, 2007

Dear Representative:

The National Association of State Directors of Special Education (NASDSE) urges you to vote to override the President's veto of H.R. 3043, the Labor/HHS/Education FY 08 Appropriations bill.

Our members, the state directors of special education in the states, federal territories and the Freely Associated States, fully support the funding level for education programs in the Conference Report. Children with disabilities and their families, and all children for that matter, benefit from the health and human service programs funded in this bill.

We must protect our nation's children. They are our investment in the future. We thank you for your past support for America's children and families and hope that you will continue to support them by overriding the President's veto.

Sincerely,

Bill East, Ed.D.
Executive Director
